

## REMARKS

Applicants are in receipt of the Advisory Action dated June 25, 2003 and have the following comments.

The Examiner has noted the amendment (a correction of a typographical error) of claim 1 in the Reply dated May 21, 2003. However, the Examiner has stated that Applicants deleted the typographical error (an underline) and then added it back in.

The amendment was as follows: "... light chain[\_]able, when ...". Applicants thus intended to indicate the deletion of the underline by brackets and the addition of a space by an underline. While use of brackets and underlines are generally accepted means of indicating deletions and additions to claims, Applicants clearly understand the Examiner's assumption that the underline was added back in ... it was not. Only a space was added in the claim, between the word "chain" and the word "able". Applicants are uncertain how better to indicate the addition of a space; however, the Examiner is hereby authorized to make such indication by Examiner's amendment should it be felt necessary.

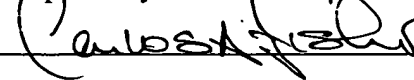

The Examiner also required cancellation of claims 14-19. Applicants hereby direct the cancellation of such claims without prejudice to their presentation in a continuation application.

As the claims are now free of the remaining objections, they are therefore respectfully submitted to be in condition for allowance.

If any fee is due in connection with this Reply, kindly use our Deposit Account 01-0885 for the payment of extension or other fees due herewith.

Dated: 9/22/03

Respectfully submitted,
